Planting Ideas | Garden Design Low growing plants in the front row should be full, look good in a line, and not require too much care. If you view a garden bed from a distance, the height of edging plants can be relatively highâ€™”around 2 feet. In beds that are viewed up close, the border plants should be lower than 2 feet.

Vegetable Gardening for Beginners | Gardener's Supply The first way to maximize space in the garden is to convert from traditional row planting to 3- or 4-foot-wide raised beds. Single rows of crops, while they might be efficient on farms that use large machines for planting, cultivating, and harvesting, are often not the best way to go in the backyard vegetable garden.
